

VOIR BOUGIE®

The Voir Bougie® by Adroit Surgical is a groundbreaking tool designed to enhance airway management for medical professionals. With its superior flexibility and strength, the Voir Bougie® enables accurate tracheal placement in difficult intubations, ensuring optimal control and safety for both patient and provider. The bougie's high-visibility color and tactile feel assist clinicians in guiding placement even in challenging scenarios. Built for efficiency, reliability, and ease of use, the Voir Bougie® is an essential tool for any airway management toolkit, helping healthcare providers deliver faster, safer, and more precise care.

Bendable 'coudé tip'

- Brightly colored safety depth markers
- Available Straight & Coiled (Tactical)
- It can be used with any laryngoscope
- Temperature resistant
